# DATA ANALYST PORTFOLIO

ANSARI MOIN | VADODARA, GUJARAT

## Professional Profile

I am an aspiring Data Analyst developing practical skills in SQL, Microsoft Excel, Power BI, and basic statistics. I am interested in transforming raw data into clear summaries, meaningful visualizations, and insights that can support business decisions. My background in graphic design has strengthened my interest in visual clarity and effective presentation.

## Core Skills

| Skill / Tool | How I plan to use it |
|---|---|
| SQL | Query, filter, sort, join, and summarize data from relational tables. |
| Microsoft Excel | Clean and organize data, use formulas, summarize information, and prepare reports. |
| Power BI | Build dashboards and visual reports to communicate key metrics. |
| Basic Statistics | Understand averages, percentages, variation, and simple comparisons. |
| Data Visualization | Choose clear charts and present information in an easy-to-understand format. |

## Project Highlights

**Project 1: Data Cleaning and Summary Report**
Objective: Organize a sample dataset, check missing or inconsistent values, and create a concise summary. Tools: Excel or SQL. Status: Add details after completing the project.

**Project 2: Business Dashboard**
Objective: Present key measures and trends through a Power BI dashboard. Tools: Power BI and Excel. Status: Add the dataset, screenshots, and findings after completing the project.

**Project 3: SQL Business Questions**
Objective: Answer practical questions using filtering, aggregation, grouping, and joins. Tools: MySQL. Status: Add query examples and results after completing the project.

## Career Objective

To begin my career in data analytics, contribute to a team through careful analysis and clear reporting, and continue improving my technical and problem-solving skills.
